2026 Year-End Fundraising
Projects Overview

Preventing female cancers through screening and vaccination
Initiative d'Aide au Développement Local | Nando Region
Funding amount: $10,000

This project aims to strengthen the prevention of female cancers through awareness campaigns, screening, and vaccination. Cervical cancer is the leading cause of cancer mortality among women in Burkina Faso, with vaccination coverage very low in rural areas. By involving community leaders, adapting messages to local languages, and bringing screening and vaccination services closer to the population (markets, neighborhoods, public places), the project removes barriers to accessing information and care, while creating a lasting change in health habits. This is a continuation of a project begun and funded last year by FBF with very strong outcomes.

Women's Market Gardening
Association Action Solidarite et Développement Durable | Tannounyan Region
Funding amount: $13,500

This project aims to strengthen the long-term climate resilience and incomes of 60 women engaged in market gardening in the commune of Sideradougou. It promotes the adoption of agroecological practices, the production and use of natural biopesticides, and the creation and application of biochar to restore soil fertility. Beneficiaries will be supported through training, agricultural inputs and equipment. The project will help sustain market gardening production in the face of climate-related risks.

Economic Resilience of Internally Displaced and Host-Community Women
Association Tabital-Lobal | Ouahigouya Region
Funding amount: $12,870

This project aims to strengthen the economic autonomy and resilience of 40 vulnerable internally displaced and host-community women in Ouahigouya, while engaging approximately 600 community members in activities that promote a safer and more supportive environment for women's economic participation.

Girls' Education and Empowerment
Sahal & Sahara Peace and Empowerment (Sahel Sage) | Sahel Region
Funding amount: $5,250

The project aims to remove barriers to education for girls in Dori and Gorom-Gorom in the Sahel region, one of the areas that has been hardest hit by the humanitarian crisis. By providing tuition, school supplies, menstrual hygiene kits, food, year-long mentorship and tutoring, and vocational training activities, the project aims to increase school retention rates and improve academic outcomes, enabling 50 girls to reach their full potential and become empowered members of their communities. This is FBF's second year funding this project.

Socio-economic Empowerment of Youth
Association Her Rising | Multiple Regions
Funding amount: $13,500

This project aims to strengthen the socio-economic empowerment of vulnerable adolescents through access to training, while fostering their resilience, leadership and community inclusion. Activities will equip 200 vulnerable adolescents (girls and boys aged 13-19) from four areas facing significant security challenges - Dedougou, Fada N'Gourma, Ouahigouya, and Gaoua- with digital, entrepreneurial, and sexual and reproductive health skills, to strengthen their autonomy and resilience in the face of economic and social shocks.

Improving vocational training access
Association Delwendé pour le Développement Communautaire| Oubri Region
Funding amount: $5,000

This project aims to strengthen the pedagogical capacities of the Naaba Boulga Vocational Training Center by constructing a permanent welding workshop. Constructed on the center's existing premises – which was previously funded by FBF - this will replace the current rented space and will accommodate 15 to 20 learners per session, providing them with high-quality training leading to employment opportunities in the welding trade.
